## Aged Veteran Lauds Lincoln

Nation Worships At Shrine of Emancipator

ABRAHAM LINCOLN is held aloft as a beacon to the youth of America by Senator Warren of Wyoming the only Union veteran remaining in congress. Senator Warren was wounded twice and won the congressional medal of honor in the Civil War. Now, at 85, silver-haired but still vigorous, he is the mentor of the senate.

"The whole nation worships at the shrine of Lincoln today. He was the greatest of all our presidents. Though in his lifetime, he felt the lash of censure and criticism, time has elevated him to his true stature."

## History Of Football Forms Willaman Topic In Address

Ohio State University Coach Traces Game For Foremen

The rise of the great game of football, from a backyard competition, to a contest kept under observation annually by millions was traced vividly, and very impressively by Sam S. Willaman, head football coach of Ohio State university, at a banquet given in his honor by Mullins Manufacturing Corporation Foremen's club last night.

Willaman, one of Salem's greatest contributions to the sporting world gave an inspiring address on football. All phases of the game were discussed—the elements surrounding it which give its exponents basis for their claim that it is the greatest game in the world, and various incidents which have arisen during his intimate association with grid activities in the past 15 years.

The Salemite—in delivering the speech, well illustrated the dynamic personality which enabled him in less than 15 years after his graduation from Ohio State, and some 20-odd following his departure from Salem High, after an auspicious athletic career there—to assume the gridiron responsibilities of one of America's leading colleges.

Tells of Investment

## KALTENBAUGH IS FACING JURY ON MURDER CHARGE

Confessed Killer Of Farm Couple Called Insane By Doctors

JURY CAN DECLARE SLAYER IS SANE

Lima Hospital or Murder Trial for Pennsylvania Youth In Canton

Canton, O., Feb. 12.—The sanity hearing for Edward ("Eddie") Kaltenbaugh, confessed killer of Mr. and Mrs. John Oser, Canal Fulton dairy farmers, who employed him as a farm hand, was resumed today. A jury of seven men and five women is hearing the testimony and if nine of them hold Kaltenbaugh insane he will be committed immediately to the state asylum at Lima, Ohio.

Judge A. W. Agler is presiding over the hearing and in the event Kaltenbaugh is not found insane he will also preside at his murder trial next Monday. Kaltenbaugh murdered the Osers by his own admission, in order that he might take their car to make an impression on a girl in New Castle, Pa. He is 21 years old and his home is in Grove City, Pa.

## Declares Man Insane

Eminent alienists told the jury late yesterday that the youth is feeble-minded to the point of imbecility, that he doubtless would have murdered others if the impulse had come upon him, that he does not appreciate the enormity of his crime but is clated "like a child at a picnic," by the attention he is receiving that he is morally unable to distinguish between right and wrong, lacking in remorse, devoid of all moral emotions, tractable under authority but highly dangerous if left to himself.

Dr. W. H. Pritchard, superintendent of the Columbus state hospital for the insane; Dr. Guy H. Williams, head of the Newburgh state hospital, and Dr. W. H. Vorse, head of the Lima state hospital for the criminally insane, all testified that Kaltenbaugh is in the border line which separates imbecile from morons and that he has the mental rating of a child of eight years.

Dr. John D. O'Brien, Canton psychiatrist, gave him the rating of a child of 11 years and said that in addition to feeble-mindedness he shows traces of insanity.

## Coma Leaves Girl Stricken At Altar; Unconscious 4 Days

Lancaster, Feb. 12.—Ethel Francis, the 17-year-old high school student who lapsed into unconsciousness four days ago from a strange malady which physicians called a "post-sleep" was out of danger today.

The girl collapsed during revival services in the Church of Christ in Christian union last Thursday. She was at the altar being converted when the strange malady took effect. Taken home, Miss Francis failed to respond to the treatment of the family physician and she was taken to a hospital here.

The mysterious sleep baffled hospital doctors. Shortly after physicians had taken a quantity of fluid from her spinal column yesterday to determine whether the patient was suffering with spinal meningitis, the girl regained her senses. She was none the worse, apparently, from her four-day "death-like" sleep.

With the consent of the girl's parents, physicians intend making a thorough examination in the hope of finding the exact cause of the coma which overtook the student without warning.

## PRESIDENT GIL STRIKES BACK IN STATEMENT

Declares Enemies are Not From Church But From Former Royalty

Mexico City, Feb. 12.—President Emilio Portes Gil today struck back at the enemies of his government in a scathing signed statement which is considered one of the most important political documents issued since he assumed the presidency.

Coming close upon the heels of the attempt to assassinate him and members of his family by dynamiting his special train Sunday night, President Portes Gil's statement declares that the real enemies of his regime are not to be found in the church, but are members of Mexico's one-time aristocracy, disinherited by the revolution, who are using the religious conflict as a cloak for their subversive activities.

The present political unrest in Mexico is wholly apart from the difficulties resulting from the church state conflict, the president declared.

The statement outlined the stern measures with which the government is prepared to put an end to politically subversive movements. These measures include the confiscation of the property of those convicted of plotting against the government, and the division of that property among the working classes.

## Salem Churches Start Lenten Observance Ash Wednesday

Several Protestant and the Catholic churches of Salem will observe Ash Wednesday tomorrow and continue special services throughout the Lenten season which follows. Special Ash Wednesday services have been arranged at the English Lutheran, Catholic and Episcopal churches.

Lent will end, this year, on March 31, which is Easter Sunday.

The first celebration of Ash Wednesday is traced back to the synod at Benevento in 1091, according to a Salem pastor, although a similar custom, not bearing the present day significance, traces back into Old Testament times.

The English Lutheran church will hold a service at 7:30 p. m. Wednesday appropriate to the day. Emmanuel Lutheran church will begin its Passion services next week holding German services each Wednesday evening and English service on Friday evening until Easter.

Celebration of holy communion will be held at the Church of Our Saviour Wednesday morning at 7 o'clock, penitential office and holy communion at 10 o'clock and penitential office, litany and sermon at 7:30 p. m.

The return of the season of lent with its golden opportunities and duties, is a special call to us to remember amidst all the pressure of the world's life, God's claim upon us to live for Him and to walk with Him. The world is ever near, the flesh is weak, and in a strenuous age of hurry and incessant work, when leisure is so often given to amusement, athletics or light and desultory reading, there is a great need of a special religious season to remind us of what true life really is and to move us to seek it where alone sustenance and development can be found.

Rev. C. A. Roth, pastor of the Church of Our Saviour, states:

"It is generally acknowledged that God's blessing has been given in large measure to those who have sought in Christ the deepening and enriching of spiritual life.

"Not a few have been led from indifference, and worldliness and sin, to Christ for pardon, peace and service.

"In this matter we are not left to human caprice by the church. The season of Lent affords just the opportunity which is required for special services and is a clear call to self-examination concerning open and secret sin.

"The spirit of Lent is not necessarily gloomy and sad. There is in high resolve, and deep self-denial, something of the feeling of stern joy. While it deals with the life of the individual, it is the opposite to that view which allows life to be self-centered even in the search for spiritual good."

## COOPER BRINGS END TO PENCE LAW WARFARE

Amendment Offered Will Bring Battle to Close, Claim

SENATE FAVORED CARPENTER BILL

Provisions of Bill Named By Chief Executive To Legislators

Columbus, O., Feb. 12.—Gov. Myers V. Cooper, assaying the role of "peace-maker" today had brought to an end the senate fight over the Carpenter bill, which seeks the repeal of the Pence law.

Hitherto the senate committee on public utilities had been split into two irreconcilable groups over the proposed measure.

The Carpenter bill originally sought to create within the state department of commerce a bureau of investigation, which would be headed by a superintendent appointed by the director of commerce. To this bureau would be referred for investigation all applications for increase or decrease in rates, which are now filed with the utilities commission. The commission would then act as a judicial body and decide the cases on the basis of facts submitted by the bureau.

## Favor Pence Repeal

The senate committee, as a whole, favored the repeal of the Pence law, but could not agree that the employees of the commission should be placed under authority of the superintendent of the bureau. A difference of opinion, also existed as to whether the director of commerce or the members of the commission should have the authority to appoint the superintendent of the bureau.

Gov. Cooper by offering an amendment to the bill is believed to have brought the hotly-contested fight within the committee to an end, and at the same time satisfied the two factions.

With the chief executive's amendment the bill would provide:

1. Repeal of the Pence law, under which utilities may collect rate increases before they are allowed by the commission.
2. Creation of a bureau of investigation, which would be headed by a superintendent appointed by the state utilities commission.
3. That all rate cases should be investigated by the newly created bureau.
4. The commission should decide cases upon the basis of facts submitted by this bureau.
5. The commission itself is to appoint and have jurisdiction over the attorney examiners, engineers, accountants and other investigators.

## A VICTORY FOR PATRIOTISM

It is a matter for national congratulation that the senate, following the favorable action of the lower house of congress, has given its approval to the bill authorizing the construction of fifteen speedy modern cruisers and an airplane carrier as an addition to our navy. The senate vote of sixty-eight to twelve speaks for government sanity. It is the course of patriotism, of the highest American, the course which speaks for national preparedness and security. Once upon a time we declared our independence of our mother country. The action of congress in passing the cruiser bill is another declaration of independence. It is our declaration of independence from the Old World; our declaration that we will no longer permit its statesmen and diplomats to regulate our national affairs, telling us what we should and should not do. It gives notice to Old World powers that we are not impressed by their sophistries, such as their contention that the passage of the bill would be what it is no sense of the world is—a reputation of the spirit of the Kellogg peace pact.

The action of congress on the cruiser bill also gives notice to the world that we are not a nation of pacifists, as might be assumed from the utterances of the pacifists, the internationalists and all the other un-American influences which have conspired against the enactment of the bill into law; that while they have been making the overwhelming volume of noise, the real sentiment of the country is one of sturdy Americanism.

But more than all this, the action of the senate in following that of the house gives notice to the elements which have so long and bitterly waged their campaign against the bill that congress will no longer permit itself to be bulldozed, intimidated and dominated by them; that it will no longer bow to their demands.

The influence which has been exerted upon congress in recent years by the pacifists, the internationalists, the parlor pinkies and the various organizations which are directly aiming at the overthrowing of our form of government or those which are, in effect, aligned with such organizations, has constituted a national disgrace. More than that, such has been the influence wielded by the elements which have combined to hamstring our governmental policies, that they have been encouraged into assuming that they are more important than they really are and caused to get into further excesses, which, had they not been checked by recent congressional actions might have led to the overthrow of the government itself.

To balance our navy and make our first line of defense what it was intended to be under the Washington disarmament agreement, the fifteen cruisers and the airplane carrier authorized by the bill are needed to place the balance of our navy somewhat near the balances of the navies of the other signatory powers that the senate disregarded the recommendation of the president and retained the time clause, which provides that work on the construction of five cruisers and the airplane carrier be begun by July 1 of the present year, that work on five more be begun next year and that construction of the other five cruisers be begun by July 1, 1931.

But great as this need is held to be, the action of congress means more than the meeting of that need. It means that congress recognizes the fact that the overwhelming majority of the people of the United States are patriotic Americans whose first thought is for our country and its interests, for its safety and preservation, that it may go on to fulfill the great destiny for which it was designed.

The Lord had better come down and become governor of Oklahoma. Evidently He is the only individual who could satisfy the citizens of Oklahoma.—Atchison Globe.

## What Others Say

## THE MAGIC OF LINDBERGH

There is something that suggests the occult—the word "occult" being a synonym for anything that we can not understand—about the way in which Col. Charles A. Lindbergh holds the post of national hero with anything whatever that he does. He is at this time flying over Central America. He has flown over it before. But does the public regard the feat merely as a more or less tedious second ringing of the first bell? It is not. The people get the same thrill over the performance that they got when he did it for the first time. It is enough that it is Lindbergh who does it.

Perhaps the psychology of this inexhaustible interest is not difficult to trace. Everybody is convinced that Lindbergh's skill and peculiar sagacity are such that he can fly when and where he pleases without mischance or detention—over Central American volcanoes and impenetrable jungles, over oceans and over bandits' dens; that he knows his exact way through fogs and storms; that not only will he land where he says he will land at the moment when he says he will get there, but that he has a weird sort of prevision for surmounting even an unforeseen contingency. And this faculty, in a fallible world, "can never grow commonplace. All this is indicated in his history and career. Yet the wonder of it persists in spite of all repetition of his feats. The fact does not have to be "news." Lindbergh himself is the news.

We have noted the case of the people who think that an angel flies just in advance of this young man's propeller and guides and makes him secure by supernatural power. The ordinary person does not indeed require this explanation of the angel. The miracle lies in Lindbergh's combination of skill and brain. Our hero is human. He is the supreme flyer—and he is American. That is enough to insure him a position on the first page. We do not need the "occult" to keep him there.—Boston Transcript.

## The Stars Say—

For Wednesday, Feb. 13.  
B. GENEVIEVE KEMBLE.

THE sidereal forces for this day point to great interest and development in professional pursuits and cultural avocations—art, literature, amusements and varied forms of social activity. Venus is dominant in both a practical and idealistic manifestation. It bespeaks romantic adventure, which may be suddenly precipitated. Some abrupt change is indicated. But wise counsel is admonished. The finances are well safeguarded, but be slow in new enterprises.

Those whose birthday it is are on the eve of a year of social, romantic and professional activities, with much pleasure as well as profit shown by slow in making changes and consider well new projects. Affectional interests may be important. A child born on this day may be well equipped for social and cultural advancement, excelling in some branch of art. It may also be inventive, original and equal to bold strokes financially. Its life will be pleasant and possibly sensational in its personal experiences.

If one cannot know Art, one can at least talk about Art.—Glen Rock

## KILL THAT COLD!

Purge the Poisons from Your System

GUARD AGAINST INFLUENZA AND PNEUMONIA

Medical authorities everywhere issued warnings against a recurrence of the recent "flu" epidemics. Their advice is to never neglect a cold, for colds often develop into "flu" and pneumonia. Keep the bowels clean and regular. Mothers—the best way to fortify yourself and insure against this peril is for each member to take a cupful of Bulgarian Herb Tea twice a week, during these danger months.

The rich juices brewed from these herbs, roots, berries, leaves, plants and flowers, taken according to directions, quickly break up a cold and guard against Grippe, Influenza or Pneumonia. This marvelous tea casts out the poisons from your system. If you have had the "flu" or a bad cold, this wonder tea will guard you against new attacks and help bring you back your health.

See your druggist—he can honestly recommend.

Clearness of voice is important to you and to the people with whom you converse. But sometimes there is hoarseness, or not actually loss of voice.

Hoarseness or huskiness is frequently the result of chronic catarrh. It comes too, from the irritating effects of dust or a smoky atmosphere upon the tissues of the throat.

Have you ever thought that the habit of chewing or sucking the cigar may produce constant irritation of the throat?

At this time I shall not discuss smoking, as to its harmfulness or otherwise. I desire to consider merely the manner of smoking.

Every smoker has his particular style. He may smoke a pipe, a cigar or a cigarette. He may use a holder. He may be a "dry smoker" and hardly moisten the end of the cigar or cigarette. He may be a "wet smoker" and have the cigar butt or even half its length, soaked with saliva. All folks with sensitive throats should avoid chewing the cigar.

To permit the cigar to get wet and then to chew it, means that the mouth is constantly filled with tobacco-infused saliva which trickles down the throat, producing irritation as it proceeds. Little particles or flakes of considerable size break away from the cigar butt and reach the throat, to irritate and inflame it, exactly as any other foreign substance would.

The more tobacco excites the flow of saliva and the more it produces irritation of the throat, the more certain you can be that your manner of smoking is harmful. If this continues you must give it up entirely, or learn to smoke less energetically.

I assume that smoking is a soothing and agreeable practice to those who indulge in it, or they would not smoke. It is important however, to reduce to the minimum its possible evils. To this end it is important

### Hoover Abandons Fishing Trip; Uses Auto for Return

Punta Rassa, Fla., Feb. 12.—In rather mysterious fashion, President-elect Hoover left this little west coast cable station town this morning and headed back for Miami Beach by motor.

He landed from the houseboat Saunterer, which had been anchored off here overnight, at 8:40 this morning and got immediately into a waiting auto.

Adding to the suddenness and mystery of the departure, Mrs. Hoover and her guests, Mr. and Mrs. Edgar Ricard, of New York, remained behind on the boat.

At midnight last night it was announced the president-elect had decided to abandon his projected fishing trip in the Gulf of Florida and would return to Miami Beach today. It was then said no decision had been made where along the coast he would disembark from the boat, but assurances were given that word would be passed to the rest of the party, which had been waiting at Fort Myers. The information that Mr. Hoover was putting in here at Punta Rassa was received through outside sources, however, early this morning.

The president-elect and Mrs. Hoover came to the west coast to be present yesterday at Fort Myers for the 82nd birthday of Thomas A. Edison, world-famous inventor.

triumph in both the game of life and other incidental contests.

"No team wants what is termed 'moral victories.' We all take our defeats with a smile, but inside of us it hurts and the next meeting with our opponent cannot come too soon. We get enough of these so-called 'moral victories' without aiming for them. Football is a character-builder, and this fact is born out in most clear style in watching games being played with victory as the goal."

"Out to Win"  
He stated that he had been headlined in various papers throughout the country because he had stated that his teams would be "out to win."

"What teams throughout the country, in any competition are not out to win?" he asked.

He paid tribute to three athletes now at Ohio State—Charles Coffey, also of Salem; Dick Larkins of East Liverpool, and Wesley Foster, All-American end of Youngstown.

Interesting incidents of the grid-iron world were narrated, together with impressive details of the story of the death of Jack Trice, one of

the greatest athletes ever developed at Iowa State, who was killed in a football game while Willaman coached there. The manner in which he was approached by Ray Conger, famous runner, who Saturday decisively defeated Passo Nurni at Iowa, and the help he gave longer was told.

### OUT OF TOWN VISITOR LAUDS WORLD'S TONIC

Suffered With Catarrh For Long Time  
 Head is now Clear of Mornings And Feels Better In Every Way

"I want two more bottles," said Mr. C. Lyons of Wellsville, O., as he walked into the World's Tonic Drug Store the past week.  
 "I have used only one bottle of World's Tonic and it is the best thing for my catarrh I have ever found and I am only too glad to give it my endorsement."

This catarrh has had me in its clutches for a long time and I have spent many a dollar on so-called catarrh medicines. Every morning I would get up with my nose and head all choked up with mucous matter and would require fifteen or twenty minutes of hawking and spitting to clear it out. All during the day mucous would drip down my throat and I had to hawk and constantly be clearing my throat to keep this mucous from going into my stomach. I was becoming uneasy, as some of the mucous I spit up was tinged with blood and I was fearful that it might affect my lungs. I suffered also with pains in back of my head and a heavy dull feeling in the front part about twice each week. My breath was offensive and my stomach was all out of sorts most of the time. I had to take different kinds of medicine to get my bowels and kidneys to move regularly.

"I had used many kinds of medicines before, as I stated, some that you apply right in your nose and throat, but they didn't do me much good. In fact, nothing I ever tried helped me very much until I started World's Tonic. This first bottle is relieving my catarrh entirely. I want two more bottles to carry home with me as my wife and I leave tomorrow."

"I spit up very little mucous now and I'm glad to say there are no signs of blood. My head of mornings is clear as a bell and my stomach is giving me less trouble every day. World's Tonic is giving me relief and when I get entirely rid of my catarrh I will be well paid for my visit to this city, as here I found World's Tonic."  
 Sold by J. H. Leane and all other good druggists. (A-155) Adv

## LINDY INSPECTS PORT LOCATIONS

### Famous Flier Nearing U. S. On Return Trip; Browned By Sun

Belize, British Honduras, Feb. 12.—Col. Charles A. Lindbergh hopped off here at 6:12 a. m. today, local time, for Havana on the third and final leg of his homeward bound flight from Panama Canal Zone to Miami, Fla. An accompanying plane had left here five minutes ahead of Col. Lindbergh.

The famous Young American aviator is returning to the United States over the same route he "blazed on his flight southward last week to establish a mail and passenger air service between the United States and the Canal Zone.

After his arrival here yesterday, Col. Lindbergh spent some time inspecting sites for an air field for Pan-American Airways, the commercial aviation company which will operate the mail and passenger planes.

A brief stop will be made at Havana, after which Col. Lindbergh will fly direct to Miami.

The colonel was in fine health and was enthusiastic over the prospects for the new service down through Central America. He is browned by the tropical sun.

## Chest Colds Need Direct Treatment

It is an obstinate cold indeed that can resist the direct double action of Vicks. Rubbed on the chest, it acts 2 ways at once:

- (1) Direct to air passages with its healing vapors released by body heat;
- (2) Direct, like a poultice, it "draws out" the soreness.

# Five City League Teams To Battle For Title In Tournament

## Two Games Scheduled For Wednesday Night At Memorial Building

City league competition will reach its hottest point, this week, when five formidable cage aggregations, all fortified in first place with five victories and two defeats, battle for the championship title of the first half.

Two games are scheduled for action at Memorial gym tomorrow night, with a third slated for Thursday. The final will be played between survivors, Friday evening.

Perry McArtor's Poses clash with the crack Salem Business College tossers, in the opening contest, Wednesday night, with the Seiberling Tires and Electric Furnace combinations billed to furnish the thrills in the finale. The winner of the first game will meet the United Cigars, who drew a bye in the drawings last Friday, Thursday night.

**Expect Record Crowds**  
Record-breaking marks in attendance are expected to be reached at each contest. Crowds during the entire first half have been nothing to post bills about, but appreciation of the high class of basketball that is seen in league competition is finally going its rounds and a packed house is expected.

Throughout the half no team could be said to have played classier ball than any of the other leaders. Upsets were frequent, one team being conceded the championship, then suddenly dropped from the limelight by dropping a game to one of the lesser-lights. Play went back and forth continually, making one of the most interesting, and undoubtedly the closest league race ever witnessed in Salem cage history.

The Seiberling Tires stepped into the league lead early in the season, later dropping back into second, when they dropped a decision to the McArtor Florists who trailed in fourth place at that time. The Electric Furnace nabbed the opportunity to clamber into the top berth but then were in turn boosted from the position by the Tires.

**Tires Held Lead**  
The Seiberlings clearly should have won the first half title. With the team having what might be termed a strangle-hold on the lead, arrangements were being made to start the second half this week, when Stoner's combine appeared completely demoralized, and dropped an over-time decision to Scott Chisholm's Tobies' last week, causing the five-way tie.

There was little excuse for the Tires' licking, the only explanation being that the team was away off color. Holding a two-point lead with just a few seconds to go the team started what might be termed not-so-good basketball, when they failed to stall, and permitted the

## Michigan Stopped By Erratic Quintet Of Northwestern

Chicago, Feb. 12.—Michigan has been stopped!

That was the big news in basketball quarters around the Western Conference loop today. And to an "in-and-out" Northwestern university quintet, who had lost as many games as it had won, goes the credit for halting the erstwhile undefeated Wolverines.

The score was 24 to 23.

That one-point margin served to throw the championship lead into a triple tie composed of Michigan, Wisconsin and Purdue. Each team has won five games and lost one.

### Columbiana Fans To See Three Tilts

Columbiana, Feb. 12. — Three games of basketball are on the schedule for the Columbiana gym Tuesday night. The big game will be between the Franklin Boosters and the Hubs of Hubbard. The Franklin Lassies, who made such a favorable impression in their first game last week, will stack up against some real opposition in the Boardman Merrimakers, while the first game will be played by the Franklin Columbias and the Darlington A. C. The attendance has been increasing with each game and last week's banner crowd will probably be eclipsed this week.

Chicago—A new tile six times as light and more than twice as fire resistant as that now in use was described before the American Ceramic society by Professor George A. Bole of Ohio State university, who predicted that the new material would permit erection of buildings more than 100 stories high.

## Jack Evidently A Successful Leader

Miami Beach, Fla., Feb. 12.—The success of Jack Dempsey and his cohorts in promoting the Sharkey-Stribling battle of the puffs and knuckles here has excited the envious attention of other southern clearing houses in the Cauliflower market.

Jim Donling, representing a group of fight fans of Tampa, said to be one of the best fight towns in the south, has approached Dempsey with an offer to underwrite a heavy-

weight bill for \$500,000 if it is put on by the same combination handling the present promotion.

"One thing at a time," replied Jack, just as he told Jack Fugazy, when the New York Mussolini of Maul approached him with an offer to join promotional forces.

Munich—Max Valier, who has been experimenting with rocket cars, recently attained what he claimed was 235 miles an hour in

testing a sled equipped with 18 rockets on frozen Starnberger lake. The rockets were fired at intervals of one and a half seconds.

## "I smoke a Lucky instead of eating sweets."

Grace M. Hay Drummond Hay  
Lady Grace Drummond Hay, only woman passenger on the Graf Zeppelin.

"The fact that we were not permitted to smoke from the time the Graf Zeppelin left Friedrichshafen until we landed at Lakehurst only increased my appetite for a Lucky Strike. Oh, how good that first one tasted! I'm really keen for Lucky Strike—the toasted flavor is delightful. I smoke a Lucky instead of eating sweets—that's what many men have been doing for years. I think it high time we women smoked Luckies and kept our figures trim."

GRACE M. HAY DRUMMOND HAY

The modern common sense way—reach for a Lucky instead of a sweet. Everyone is doing it—men keep healthy and fit, women retain a trim figure. Lucky Strike, the finest tobaccos, skillfully blended, then toasted to develop a flavor which is a delightful alternative for that craving for fattening sweets.

Toasting frees Lucky Strike from impurities. 20,679 physicians recognize this when they say Luckies are less irritating than other cigarettes. That's why folks say: "It's good to smoke Luckies."

**Note:** Authorities attribute the enormous increase in Cigarette smoking to the improvement in the process of Cigarette manufacture by the application of heat. It is true that during 1928, Lucky Strike Cigarettes showed a greater increase than all other Cigarettes combined. This surely confirms the public's confidence in the superiority of Lucky Strike.

# Five City League Teams To Battle For Title In Tournament

## Two Games Scheduled For Wednesday Night At Memorial Building

City league competition will reach its hottest point, this week, when five formidable cage aggregations, all fortified in first place with five victories and two defeats, battle for the championship title of the first half.

Two games are scheduled for action at Memorial gym tomorrow night, with a third slated for Thursday. The final will be played between survivors, Friday evening.

Perry McArthur's Poses clash with the crack Salem Business College tossers, in the opening contest, Wednesday night, with the Seiberling Tires and Electric Furnace combinations billed to furnish the thrills in the finale. The winner of the first game will meet the United Cigars, who drew a bye in the drawings last Friday, Thursday night.

### Expect Record Crowds

Record-breaking marks in attendance are expected to be reached at each contest. Crowds during the entire first half have been nothing to post bills about, but appreciation of the high class of basketball that is seen in league competition is finally going its rounds and a packed house is expected.

Throughout the half no team could be said to have played classier ball than any of the other leaders. Upsets were frequent, one team being conceded the championship, then suddenly dropped from the limelight by dropping a game to one of the lesser-lights. Play went back and forth continually, making one of the most interesting, and undoubtedly the closest league race ever witnessed in Salem cage history.

The Seiberling Tires stepped into the league lead early in the season, later dropping back into second, when they dropped a decision to the McArthur Florists who trailed in fourth place at that time. The Electric Furnace nabbed the opportunity to clamber into the top berth but then were in turn boosted from the position by the Tires.

### Tires Held Lead

The Seiberling clearly should have won the first half title. With the team having what might be termed a strangle-hold on the lead, arrangements were being made to start the second half this week, when Stoner's combine appeared completely demoralized, and dropped an over-time decision to Scott Chisholm's Tobies last week, causing the five-way tie.

There was little excuse for the Tires' licking, the only explanation being that the team was away off color. Holding a two-point lead with just a few seconds to go the team started what might be termed not-so-good basketball, when they failed to stall, and permitted the

## Michigan Stopped By Erratic Quintet Of Northwestern

Chicago, Feb. 12.—Michigan has been stopped!

That was the big news in basketball quarters around the Western Conference loop today. And to an "in- and-out" Northwestern university quintet, who had lost as many games as it had won, goes the credit for halting the erstwhile undefeated Wolverines.

The score was 24 to 23.

That one-point margin served to throw the championship lead into a triple tie composed of Michigan, Wisconsin and Purdue. Each team has won five games and lost one.

### Columbiana Fans To See Three Tilts

Columbiana, Feb. 12. — Three games of basketball are on the schedule for the Columbiana gym Tuesday night. The big game will be between the Franklin Boosters and the Hubs of Hubbard. The Franklin Lassies, who made such a favorable impression in their first game last week, will stack up against some real opposition in the Boardman Merrimakers, while the first game will be played by the Franklin Columbus and the Darlington A. C. The attendance has been increasing with each game and last week's banner crowd will probably be eclipsed this week.

## Jack Evidently A Successful Leader

Miami Beach, Fla., Feb. 12.—The success of Jack Dempsey and his cohorts in promoting the Sharkey-Strubling battle of the pails and knuckles here has excited the envious attention of other southern clearing houses in the Cauliflower market.

Jim Donling, representing a group of fight fans of Tampa, said to be one of the best fight towns in the south, has approached Dempsey with an offer to underwrite a heavy-

weight bill for \$500,000 if it is put on by the same combination handling the present promotion.

"One thing at a time," replied Jack, just as he told Jack Fugazy, when the New York Mussolini of Maul approached him with an offer to join promotional forces.

"I smoke a Lucky instead of eating sweets."

*Grace M. Hay Drummond Hay*  
Lady Grace Drummond Hay, only woman passenger on the Graf Zeppelin.

"The fact that we were not permitted to smoke from the time the Graf Zeppelin left Friedrichshafen until we landed at Lakehurst only increased my appetite for a Lucky Strike. Oh, how good that first one tasted! I'm really keen for Lucky Strike—the toasted flavor is delightful. I smoke a Lucky instead of eating sweets—that's what many men have been doing for years. I think it high time we women smoked Luckies and kept our figures trim."

GRACE M. HAY DRUMMOND HAY

The modern common sense way—reach for a Lucky instead of a sweet. Everyone is doing it—men keep healthy and fit, women retain a trim figure. Lucky Strike, the finest tobaccos, skillfully blended, then toasted to develop a flavor which is a delightful alternative for that craving for fattening sweets.

Toasting frees Lucky Strike from impurities. 20,679 physicians recognize this when they say Luckies are less irritating than other cigarettes. That's why folks say: "It's good to smoke Luckies."

**Note:** Authorities attribute the enormous increase in Cigarette smoking to the improvement in the process of Cigarette manufacture by the application of heat. It is true that during 1928, Lucky Strike Cigarettes showed a greater increase than all other Cigarettes combined. This surely confirms the public's confidence in the superiority of Lucky Strike.

## MOVIES

### In Playhouses Of Salem

Declared one of the highest class and finest types of entertainment seen in Salem theatres for years, "The Garden of Fashion," sponsored by Salem merchants, gave its initial showing at the Grand theatre Monday night.

The show is a wide departure from the usual travelling entertainment troupe. Several internationally known beauties, including "Miss Kentucky"—Virginia Mae Handrick, and the "Fashion Girl of America"—Alfreda Larsen, of Pittsburgh, and a fine set of dancers and singers gave the first-night audience a bill of high standards.

Robert E. Whitney, broadcasting artist, sings several baritone selections. The beauties display latest spring fashions replete with comedy and song.

#### "JAZZ MAD"

Romance and good acting feature the presentation of "Jazz Mad," Universal picture, starring Jean Hersholt, that opened before an enthusiastic audience at the Royal theatre last night. Marion Nixon and George Lewis provided the romance and Hersholt the acting. Human interest abounds in the story of the old musician whose

great sympathy went to sell and who has to earn a living by playing in a comedy jazz band. Tender scenes and mirthful ones occur in the right places.

Hersholt adds to his reputation as one of the screen's greatest character actors by doing a tremendous portrayal as Franz Hausman, the musician. His genius for acting is fully shown.

Torben Meyer, Clarissa Selwynne, and Roscoe Karns do finely drawn, cameo-like portrayals. Andrew Arbuckle, Patricia Caron, and Charles Clary are included in the excellent supporting company.

#### "GERALDINE"

A snar, yet more entertaining version of American youth than the jazz-mad film and fiction of the past two years, is presented in "Geraldine." Pathe's picturization of Booth Tarkington's story, which opened with great success at the Grand theatre last night.

Eddie Quillan will still further entrench himself in the affections of the theatre goers through his splendid work as the enterprising, quick-witted, debonaire young Eddie Abel, who manages to make a good living, have a whale of a time and yet remain a little wistful and somehow lonely.

In the title roles of "Geraldine," Marion Nixon proves a sensation, both as the sparkling young belle of the latter sequences, and the drab, unattractive girl who agreed to follow any advice given her by Eddie, if he would metamorphose her into a butterfly. In both characterizations, Miss Nixon is convincing and reveals herself as a poised, restrained young actress.

#### "SINS OF THE FATHERS"

With the coming of each new Emil Jannings picture, local theatre-goers have fallen into the habit of becoming spellbound while the artist gives one of his characteristic performances. The sensation is not amiss with his latest Paramount starring film entitled, "Sins of the Fathers," which opened last night at the State.

Jannings, in the role of a German-American, Wilhelm Spengler, starts as a waiter, becomes a saloon keeper, then a rich bootlegger, followed by a prison term in which he acts as a waiter, and upon release falls back to the vocation of a waiter, again, this time in a picnic garden. Throughout he plays the kind of a man that American audiences know.

The sensational theme of bootlegging is handled in a way to which no one will object, because the picture does not glorify the criminal aspects of bootlegging. On the other hand, bootlegging brings intense tragedy to Jannings' life.

The famous actor has a notable supporting cast headed by Ruth Chatterton, the well known stage actress. Others in the cast are Zasu Pitts, who has become one of the screen's greatest tragediennes; Barry Norton, Jean Arthur, Jack Loden, Matthew Betz, Harry Gording, Arthur Housman and Frank Reichert.

### Simple Entrees to Round-Out the Well-Served Dinner

Entrees are the dressy and distinguished dishes of a well-served dinner. The garnishing is of real importance, for these dishes are generally passed so each guest may help themselves. The entree most frequently used on the home table is with the meat course and is usually something particularly tasty. Such as baked bananas in sherry, sweetbreads in ramekins, sausages baked in pastry jackets, chicken livers in aspic.

#### Bananas in Sherry Jelly

Butter well an enameled pie dish, or layer-cake pan. Peel and fit in six or seven bananas. Sprinkle them with a little pepper, salt and sugar, dot with little lumps of butter, pour over a half cupful of hot honey, and put a teaspoonful of sherry jelly on top of each. Cook in a moderate oven for about 25 minutes until the bananas are a delicate brown. Baste frequently with the juice as they cook. This dish is especially good with steak, veal cutlets, or roast beef.

#### Sausage Puffs

Take six well-seasoned sausages and remove from their skins. Add to the meat two tablespoonfuls of applesauce, a little red pepper, juice of an onion and a tablespoonful of cream. Make a good pastry, roll out thin and cut into squares, put a tablespoonful of the sausage meat on each and roll up, pinching the ends. Lay the rolls on a buttered baking dish and bake until the crust is done a delicate brown. Lay on a hot dish and mask in a rich smooth tomato sauce.

#### Sweetbreads in Ramekins

Blanch two pairs of sweetbreads in cold water for eight minutes, then put into a saucepan with cold water and a teaspoonful of salt and parboil for 20 minutes from the time they start to boil. Drain, blanch in cold water for 10 minutes, drain, dry off, trim and dice. Have ready a cupful of cream sauce, put

in the breads and add a teaspoonful each of grated onion and a finely minced red pepper a teaspoonful of sugar and a half teaspoonful of powdered dried mint. Fill wells buttered ramekins, sprinkle with a few bread crumbs and a little grated cheese. Bake in a moderate oven 12 to 15 minutes and serve hot. Nice with steak or chop dinner.

## PROOF OF DYES is in the dyeing!

Words won't dye a dress, or coat, or sweater. It takes real anilines to do that. That's why Diamond Dyes contain from three to five times more anilines than any other dye—by actual test.

It's the anilines in Diamond Dyes that do the work; that give the colors such brilliance; such depth and permanence. It's real aniline that keeps them from giving things that redyed look; from spotting or streaking.

Next time you have dyeing to do, try Diamond Dyes. Then compare results. See how soft, bright, new-looking the colors are. Observe how they keep their brilliance. Your dealer will refund your money if you don't agree Diamond Dyes are better dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

### COMPLICATION IS QUICKLY ROUTED BY NEW KONJOLA

Kidney Trouble, Rheumatism and High Blood Pressure Disappear After Taking Famous Medicine

MR. C. BOSTWICK

"Konjola certainly did wonders for me and I happily praise it to everyone who is ill because I believe that through the use of Konjola there could be a lot less suffering in this world," said Mr. C. Bostwick, Grove City, Ohio, which is a suburb of Columbus.

"High blood pressure and kidney trouble almost drove me blind. Severe back pains prevented me from sleeping well or even turning over in bed. Rheumatism settled in every joint. My neck and back hurt so much that I was nearly wild. For years I suffered in this manner and tried in vain to find a medicine to relieve me.

"Then Konjola was recommended and I made up my mind to give it a trial. By the end of the first bottle I began to feel better. My kidneys grew stronger, my blood pressure was reduced and the rheumatic pains became less severe. I continued the treatment and today I am a well man. Konjola ended every trace of kidney trouble, rheumatism and other ailments. I have new strength and greater energy and for those reasons, I praise this master medicine."

Konjola is sold in Salem, O., at J. H. Lease, Filding and Bolger & French drug stores and by all the best druggists in all towns throughout this entire section.—Adv.
